SUMMARY

Motivated and meticulous software enthusiast with a strong foundation in full-stack development. Proficient in object-oriented programming, web development, and database technologies. Skilled in HTML, CSS, JavaScript, Bootstrap, Angular, and JAVA. Demonstrates excellent problem-solving and communication skills, along with a passion for continuous learning and adopting modern technologies. Possessed a proven ability to swiftly grasp project requirements, innovate solutions, and meet tight deadlines.

TECHNICAL SKILLS

Programming Languages:

C++, Python, Java, C

Scripting
Languages:

HTML, CSS, JavaScript,

ReactJs, Bootstrap,

Angular

Databases:
MySQL, Oracle DB, PL/SQL

Skills:

- Front-end
- Back-end
- Database Management
- Lead Generation Software

CERTIFICATIONS

- Unity & C# | Coursera | Feb'24
- SQL (Basic) | HackerRank |Dec'22
- Java (Basic) | HackerRank |Nov'22
- JavaScript (Basic) | HackerRank |Oct'22

EXTRACURRICULAR ACTIVITIES
- Gym and Fitness Training
- NSS Volunteer (National Service Scheme)
- Photography and Videography
- Blood Donor (2 times)

WORK EXPERIENCE

C++ | CodeTantra | IN   Jun'23 – Jul'23

- Gained hands-on experience in developing real-time projects using the concepts.
- Created a project Library Management System. In this, I have used classes and Objects.

PROJECTS

Restaurant Website   Nov'23
- Domain: Using Front-end Web Development.
  - Users can easily navigate through the restaurant's menu with a user-friendly interface, thatdisplays various dishes, prices, and descriptions.
  - I learned how to use HTML, CSS, JavaScript, and Bootstrap to create a visually polished andresponsive website, integrating interactive elements for an enhanced user interface.

Math-based captcha using Python   Nov'23
- Domain: Python
  - Created a sample graphical user interface.
  - It helps users from spam and password decryption.
  - Learned how to create the graphical user interface and some basic knowledge of Python.

Hotel Management System   Apr'23
- Domain: Web Application | Programming Languages: Java
  - Constructed an application to reserve hotel rooms for a specific location.
  - Developed features for the application and created a new landing page to enhance customer experience.

Blood Donation   May'22
- Domain: HTML, CSS
  - Built a website to help people donate blood.
  - I led this team as a main developer, worked on registration and login components, and integrated the entire application.
  - Skills Utilized: HTML, CSS.

ACHIEVEMENTS

- Received the "Community Service Excellence Award" for significant contributions and unwavering commitment as an NSS volunteer, particularly in organizing health camps, awareness drives, and community development projects. | Aug'22 – Dec'23.
- Achieved medal on completing the 21KM Marathon run conducted by Hero. | Oct'22.

MOOC Courses

- Google Analytics | Google |Nov '23
- Computer Architecture and Computer Organization | Udemy | Oct '23
- C++ | CodeTantra | Aug'23
- Great Learning | SQL | Sep'22

EDUCATION

B.Tech. in Computer Science   Jul'21 – Present

Lovely Professional University | Phagwara, IN

CGPA 7.3

Higher Secondary   Jun '19 - Mar '21

Sri Chaitanya College | Vijayawada, Andhra Pradesh, IN

CGPA 86%
